Dear Sir,

Subject: Exploration and Production Investment in Oman

PTT Exploration and Production Public Company Limited (PTTEP) would like to announce that on July 21, 2002, PTTEP Middle East Company Limited (PTTEP ME), an affiliate of PTTEP, signed an Exploration and Production Sharing Agreement with Omani Government to invest and operate in Exploration Block 44 with 100% interest.

Block 44 is situated onshore in northwestern part of Oman and covers approximately 1,162 square kilometers. It is located about 300 kilometers west of Muscat City, and adjacent to Safah oil field.

After the signing and upon ratification of the Royal Decree by His Majesty Sultan Qaboos bin Said, Sultan of Oman, the Company will conduct 2D seismic survey and perform technical study in the first two years before drilling an exploration well in the third year. The Company is committed to spend at least US\$9 million for the first three years of exploration period.

PTTEP has been interested in expanding its exploration and production investments into the Middle East, one of the world's highest potential area for petroleum reserves. The investment in Oman represents PTTEP's strategic plan to expand its exploration and production activities, and will enhance opportunities to establish relationship within the region. In 2001, Oman was the second largest source of crude oil import for Thailand.

Yours sincerely,

  
Chitrapongse Kwangsukstith  
President
